Strategic Business Recommendations

1. Optimize Inventory for Wonka Product Line:

The top 5 revenue-generating items are all Wonka Bar variations. Ensuring optimal stock availability and minimal stockouts for these high-margin items is critical to revenue stability.

2. Expand Sugar & Other Product Marketing:

While Chocolate yields highest overall volume, Sugar products demonstrate high profit margins (~68%). Targeted promotional bundles could help scale these lower-volume categories.

3. Regional Logistics Efficiency:

Review supply chain distribution costs to maintain the healthy ~66% gross profit margin as distribution volume expands into secondary markets.
